# Storm Rescue Work **Aided by Clear Skies And Warmer Weather**

Temperatures moderated and skies were mostly clear today in the snow-covered Western States where disaster relief crews worked to save thousands of stranded livestock and marooned ranchers and Indians.

With no heavy falls of snow over the Western plains and Rocky Mountain region airlift operations were increased, easing the feed crisis in Nevada and Utah.

But there was snow, sleet and freezing rain over many other sections of the country. The cold weather eased over the subzero belt, although the mercury was below zero early today in Minnesota, the Dakotas, Wyoming and Utah. St. Cloud, Minn., reported -13 for one of the lowest readings.
